TECHNICAL INFORMATION

Support :	PET
Adhesive :	Acrylic polymer 13gr/m2
Protector :	Siliconised PET 23 microns
Thickness :	23 microns
Application side :	Interior
T° of application :	min, + 5°C
Standards :	EUROCLASSES
Fire rating :	B-s1, d0
Garanty :	10 years indoors if not exposed to sunlight

PRODUCTION MONITORING AND STANDARDS

In order to constantly improve our products, we may modify colours and manufacturing processes without prior notice. Before applying our films, we recommend that users ensure that they are suitable for the intended use and comply with current standards.

APPLICATION ADVICE

To install, use soapy water and suitable tools.

RECOMMENDATIONS

The surface must be clean and covered with soapy water before application. For best results, use the appropriate equipment. Some materials, such as polycarbonate, can generate bubbles. To meet the highest standards, we recommend that you do not mix films from different productions.

 **DURABILITY :** 10 years for vertical applications in Central Europe.

 **USE :** For all types of glass

 **MAINTENANCE :** After 30 days with a standard cleaning solution (non-abrasive, ammonia-free, etc.). Do not use cleaning products that could scratch the surface.

 **STORAGE :** 2 years from delivery. This film should be stored away from excessive moisture and sunlight, at a temperature below 38°C.

Available in roll sizes : 1,52m | 10 m
30 m
